

U.M. ARMY - Texas Conference

Warehouse Tools

The following tools should be supplied by each Participating Church group to be put in the tool warehouse area at camp. These tools will be available to the whole camp to be taken out to the work sites when needed. Groups smaller than 20 in number should try to bring at least one of each item. All items should be marked with your church color and owner's name.

Please do not send tools that are of poor quality. All tools need to be in good working condition to avoid accidents and safety issues.
